«Instructions»

- Please wear a plain t-shirt for the x-ray.
- (Do not wear printed or embroidered shirts, or clothes with joined bottoms and tops, such as one-piece dresses etc.)
- Do not wear shirts with metal parts or buttons. Do not wear necklaces etc.
- If you have long hair, please tie it back with an elastic band etc.

«X-ray Results and Medical Exam Certificates»

- When additional tests are required, you will be contacted via phone by the end of November.
- If you need a medical exam certificate, additional exams will be necessary (internal exam, blood pressure, height/weight, eyesight). Please call the Student Health Care Center (022-795-7829) to make an appointment in December or later (The x-ray results will require 2 to 3 weeks).

«Working Students»

- If you underwent a medical exam that included a chest x-ray at your place of employment (or are scheduled to do so), you do not need to undergo the fall chest x-ray if you bring a photocopy of your results to the Student Health Care Center. However, in this case the center will be unable to issue a Medical Examination Certificate.

«Student Medical Examinations from Next Year»

- Please undergo the Student Medical Examination in May from next year on.

In the event of an emergency (natural disaster etc.), please see the Student Health Care Center website:

Instructions for undergoing chest x-rays

In order to get an accurate result, you need to be mindful of your clothing, hair, and accessories.

Please be careful of the following:

Wear a single, thin, plain shirt during the x-ray.

We cannot take the x-ray if you are wearing a shirt with illustrations/patterns, buttons, pockets, beads, or other ornamentation.

Please remove any adhesive medical compresses, adhesive magnets, etc. from your skin.

If you have long hair, please tie it up so that it does not touch the shoulders.

Remove necklaces.

Religious garments, such as hijabs, are fine as long as they are made of thin materials.

However, you must remove any fasteners, such as broaches, pins, etc., from the shoulder/chest area.
