

Tohoku University Student Exchange Program-Outbound Application Guidelines AY2019 First Recruitment

I. Overview

The University-wide Student Exchange Program is a program in which an undergraduate or graduate degree student (hereafter “student”) is given the educational opportunity to take courses or receive academic advice at a partner university for a semester to a year.

The exchange program participants will remain enrolled at TU while they are enrolled at a partner university and take academic courses and/or conduct research activities. Students may transfer credits earned at a partner university to, or earn credits from, TU if certain requirements are satisfied. The approval of credit transfer requests is determined by each School.

During the study period, the tuition fee at the partner university will not be collected in most cases, but payment to TU of the tuition fee is required.

1. Partner University

Students can select their preferred universities for the exchange program from more than 220 partner universities. Please refer to **AY2019 List of the Partner Universities and Institutions for University-wide Student Exchange Program (Appendix 1)**.

- ※ If something changes in the list, it will be informed on the website of Global Learning Center.
- ※ Some of the partner universities may not accept exchange students for AY2019. If a student selects one of those universities as his/her first preference, there is a possibility that the student will be selected as a candidate for his/her second to fifth preferred university.
- ※ The Schools may have their own partner universities (department-level partner universities). If a student wishes to study at a department-level partner university, he/she should contact the relevant section of the School for the application procedure.
- ※ The recruitment of exchange students to member institutions of the Global Engineering Education Exchange (GE3) organized by the Institute of International Education (IIE) will be conducted by the School of Engineering. For more details, contact:
 - Division of International Education and Exchange, School of Engineering

(2) Choosing Preferred Universities

-On the Student Exchange Application Form 【Application Document ①】, students can list up to five partner universities in the order of preference.

-Students are required to satisfy the language requirements of all their chosen universities.

-Choosing from the 2nd to 5th preferred universities is as important as choosing the 1st preferred university. Students should make sure to spend a good amount of time researching on the partner universities' websites to get as much information as possible on them, such as available faculties and courses for exchange students, Courses taught in English, application procedures etc., and select universities that match the purpose of their study.

-Screening is only for the five partner universities students list up and the students are screened in order of their preference. After students have passed the internal screening, they can apply to only one university, which TU will specify.

(3) Revocation of Exchange Student Eligibility

In the following cases, students will lose eligibility even if they passed the internal screening.

① If the student is not admitted by the partner university.

③ If the student has health concerns.

⑥ If TU considers the candidate to be inappropriate for the exchange program for a reason not mentioned above.

(4) Acceptance/Refusal and Affiliation at the Host University

Generally speaking, Acceptance/Refusal and the student's affiliation at the host university is decided based on TU's advice and the student's preference. However, the decisions are totally up to host university.

Some graduate schools in the USA require candidates to submit a GRE score (Graduate Record Examinations) as an application document.

(8) Medical Insurance Provided by the Host University or Host Nation/Region

Some universities, countries or regions require visiting exchange students to join an institutional/a local insurance scheme. In that case, students are required to purchase the insurance required by the host university / country / region as well as the overseas travel insurance mentioned in (4) of Article V. Purchasing overseas travel insurance is mandatory for all students. If s/he does not buy any overseas travel insurance, s/he may lose eligibility as a candidate.
