| ④ 授業の目的と概要<br>/Objectives and Summary of Class | An exploratory culture course, Japanese Culture D is offered for foreign students to learn about and share insights into various aspects of the living culture of Japan. The course comprises three basic approaches: discussion of certain cultural aspects of the country; reading literature; fieldwork at places of cultural significance. Those who took Japanese Culture C in the fall semester should take Japanese Culture D in the spring semester since they make a pair. Culture B and D courses overlap in part due to the nature of certain special events taking place during the semester.   |   |   |                   |      |   |           |
