授業題目	Craft of Research
授業の目的と概要	This course is intended to introduce and improve how to conduct effective and meaningful research. Because law departments of Japanese universities traditionally have not required submission of graduation papers, most law students do not know how to conduct research or write academic papers. However, if you are considering attending graduate school, you will need the skill to research and write academic papers. By reading the famous textbooks (see below) and presenting your own research agenda, you will learn the essential skills.
学習の到達目標	Participants will learn how to conduct effective and meaningful research and how to write academic papers.
授業内容・方法と進捗予定	<p>1. Introduction Each participant is required to present her/his own research agenda. The agenda can be tentative/primitive because we will improve it during this course.</p> <p>2.
