BCP Guidelines

Tohoku University Emergency Action Plan (BCP) for Preventing Spread of COVID-19 Infection (Revised Version)

2020.4.7 enactment
2023.4.1 revision

The decision to move a stage (level) is determined by the task force, taking into account the overall situation of the country, the region and the campus.

This Action Plan applies to all faculties in principle. Each department or area head can set the level deemed appropriate to the situation.

LV	Standard	Research Activities	Classes	Business Trip	Internal Meetings	Student extracurricular activities	Events (Held by TU)	Administrative management system
0		Normal Operation	Normal Operation	Normal Operation	Normal Operation	Normal Operation	Normal Operation	Normal Operation
1	A domestic infection has been confirmed and the university activities are affected by government requests for infection prevention.	Research activities can be carried out by implementing thorough infection prevention measures through each department's management system.	With adequate infection prevention measures in place, the classes will be conducted through a combination of face-to-face instruction and online instruction.	Check the infection status at the business trip location and take extra care in your activities.	In-person meetings can take place with the thorough measures to prevent the spread of infection. Online meetings are encouraged.	Extracurricular activities can be carried out if appropriate measures to prevent infections are put in place and permission has been obtained based on the Guidelines for Extracurricular Activities.	Events and activities can be held in accordance with the guidelines for holding events, provided adequate measures to prevent the spread of infection are taken.	Usual business can take place with thorough measures to prevent the spread of infection. Depending on the nature of the work, staggered work hours and 10-30% telecommuting are recommended.
2	The government has declared a state of emergency outside of Miyagi Prefecture, and certain restrictions have been imposed.	Research activities will be carried out following the thorough implementation of measures to prevent infections, as managed by each department.	In-person classes will be held in combination with online classes, with appropriate measures to prevent infections put in place.	Refrain from unnecessary and non-urgent business trips to areas where the infection is spreading.	Face-to-face meetings should be kept to a minimum, and in principle, we recommend online meetings.	Extracurricular activities can be carried out if appropriate measures to prevent infections are put in place and permission has been obtained based on the Guidelines for Extracurricular Activities.	In principle, online. However, if the nature of the event requires a face-to-face session and permission has been obtained from the head of the department, the session can be conducted face-to-face in accordance with the guidelines for holding events.	Most work will be carried out as normal, with the utmost care taken to prevent the spread of infections. Teleworking will also be promoted.
3	A state of emergency was declared in Miyagi Prefecture by the government, and certain restrictions were imposed.	Although research activities can be carried out if departments carry out appropriate measures to prevent the spread of infection, it is recommended that everyone reduce the amount of time they spend on site and to carry out activities at home if possible.	In principle, classes are conducted online. In cases where face-to-face sessions are essential for regular examinations, dissertation examinations, and practical skills, experiments, and training courses, and for classes for first- and second-year undergraduate students, face-to-face sessions will be conducted with sufficient infection prevention measures in place.	Only when it is absolutely necessary for business and permission from the department head has been obtained	In-person meetings should be kept to a minimum, and online meetings are recommended in principle.	Extracurricular activities can be carried out if appropriate measures to prevent infections are put in place and permission has been obtained based on the Guidelines for Extracurricular Activities.	In principle, online.	While taking substantive steps to prevent the spread of infection, employees are encouraged to telework, depending on the nature of their work.
4	The infection is spreading continuously on our campus.	Research activities will be limited to the minimum number of activities, and interviews with other visitors will be avoided by taking turns.	Online lectures only	In principle, prohibited	Online conferences only	Prohibited	Postponement or cancellation	The number of employees will be kept to a minimum to continue important ongoing administrative duties, and the number of employees will be lessened by shortening shifts. All other employees shall, in principle, telecommute. This means 70-80% of staff telecommute.
5	The infection is spreading explosively on our campus.	In order to maintain a minimum level of university functions, laboratory staff may enter laboratories briefly only with permission from the departmental head or other organizational representative. In principle, staff should enter in shifts and refrain from meeting unnecessary personnel.	Online lectures only (However, staff will be prohibited from conducting classes on campus)	In principle, prohibited	Online conferences only	Prohibited	Postponement or cancellation	As a general rule, employees are required to telecommute except for urgent tasks that require them to come to work.

■ Warnings regarding COVID-19

(Information about warnings will be posted as they are issued.)

* These restrictions do not apply to coronavirus-related medical staff and researchers.

* The TU BCP may be revised at any time due to changes in the phase of infection, the situation at that time, etc.

Counseling Office

The Counseling Office offers appropriate counseling to university students about problems in their everyday lives, including academic work, future plans, interpersonal relationships, personal traits, and mental health. We provide counseling, consultations, and referrals that can help you enjoy a more fulfilling university experience. We do not reveal any of your information shared during counseling sessions to anyone outside the Counseling Office. You do not have to worry about coming for advice on any problem of any sort. Please do not hesitate to visit us, even just to ask a question or talk about something that concerns you.

How to Use the Services

You can either come directly to the Counseling Office or arrange an appointment by phone or E-mail. If you make an appointment by E-mail, please write your name, affiliation, and contact: phone number/E-mail address, in the body of E-mail. Consultations can be conducted more smoothly if an appointment is made in advance. Counseling sessions are free of charge.

Disability Services Office

The Disability Services Office provides information and advice on disability issues and facilities support for students with visual, auditory, physical, internal and/or developmental handicaps. Through consultations regarding problems and concerns in campus life including such areas as classes, examinations and research, we will respond by working together with the various units concerned and school personnel of individual departments for necessary support. Please feel free to consult us.

Information on Activities

We will discuss problems on an individual basis and provide the following supports and services to respond to the diverse needs of people with disability.

Support for Study and Campus Life

- Classes and examinations:** Coordination for alternative measures for practical skills-based courses, taking examinations in a quiet or private location, etc.
- Assurance of receiving information:** Providing note-takers, assistance with reading, etc.
- Support equipment:** Providing FM hearing aid systems and portable Braille terminals, etc.
- Offering a break room**

On-campus Supporters

We will dispatch on-campus supporters so that individuals can receive various types of support, including assurance of receiving information, and assistance with moving and writing.

Barrier-Free Measures

We will improve facilities in order to make moving around the campus more convenient.

How to Use the Service

You can either come directly to the Disability Services Office or arrange an appointment by phone or E-mail. Consultations can be conducted more smoothly if an appointment is made in advance.
