主要授業科目						
授業の目的と概要	encompass master's st	The course's primary objective is to familiarize students with the fundamental concepts of Labor Economics, encompassing theoretical principles and empirical methods. Kindly note that this course is primarily intended for master's students. If undergraduate students wish to enroll, they are required to have a solid understanding of econometrics, as well as proficiency in listening, speaking, reading, and writing in English.				
学修の到達目標	Students ar me your bri	Students will develop the necessary skills to analyze and comprehend labor market policies and engage effectively in labor economics.  Students are primarily selected based on their academic background and goals. If you are interested, please kindly send me your brief resume and transcript via email, and I will promptly respond and proceed with further communication. Email address: bai.yu.c2@tohoku.ac.jp				
授業内容・方法と進度予定	Labor Mark Human Cap Labor Mobi Female Lab	Methods: Fundamental causal inference methods: IV, DID, RDD Labor Market Dynamics: Labor supply, demand, and market equilibrium Human Capital Accumulation Labor Mobility Female Labor Participation Research Development: Conceive, refine, and present your research plan				
実務・実践的授業						
使用言語	English	English				
成績評価方法	_	The final grade is based on three components: homework assignments, paper and research plan presentations, and the final report.
