授業題目	Seminar on Law and Gender
授業の目的と概要	COURSE OBJECTIVES AND OUTLINE: We will discuss themes in gender, law and policy, such as gender stereotypes and biases in law and legal practice, the portrayal of women in the courts and justice systems of Japan and a number of other jurisdictions. This year, during the 1st half of the seminar, we will focus on the legislative changes and debates concerning same-sex marriage, and the themes that have emerged in relation to sexuality, gender and the law. During the 2nd half of the semester, we will focus on gender based violence, more specifically domestic violence. This seminar aims to cultivate a deeper understanding of gender and the law, as well as to introduce a comparative perspective through readings concerning gender and law in different countries/jurisdictions.
学修の到達目標	GOAL OF STUDY: The students will deepen their understanding of gender, law and policy, especially the perspectives that arise in relation to (1) the same-sex marriage debate and (2) domestic violence, as well as acquire new perspectives from Japan and abroad. At the completion of this course, students will be able to outline and analyze the various gendered aspects of related law and policy from a variety of viewpoints and angles.
