Course of Media Class					
Main Subjects					
Object and Summary of Class	This course focuses on the social security system and public finance. Current policy issues in Japan (especially, social security system) are also discussed.				
Goal of Study	We study the role of the government in the economy and why government intervention is needed. Also, you can understand Japanese social security system and discuss not only system itself but also argue the pros and cons of the system. Also, I introduce general topics of welfare economics (for example, the reasons for government intervention in the economy and social insurance). Next, I talk about special topics of social security, especially in Japan. would also like to talk about family economics and education economics. This class also study applied microeconometrics
