Excellence and Innovation in Synergy toward a Leading University

創造と変革を先導する大学

Over more than a century of history, Tohoku University's tradition of Research First, philosophy of Open Doors and ethos of Practice-Oriented Research and Education have produced excellent graduates, generated numerous research achievements and contributed to the development of a peaceful and just society.

1907

First Female students

Cika Kuroda Raku Makita Ume Tange

Open Doors

Tohoku University has firmly adhered to its "Open Door" policy. It was the first Japanese university to accept female and international students, and that liberal tradition has certainly continued to this day.

Lu Xun Chen Jianguo Su Buging

Research First

The "Research First" principle called upon scholars to not only pursue highly productive research but to also put their findings to work in the teaching of their students.

Practice-Oriented

"Practice-Oriented Research and Education" has long been one of the core values of Tohoku University, whereby the fruits of leading-edge research are put to practical use for the benefit of society and toward improving living standards.

2011.3.11

The Great East Japan Earthquake

Recovery and Reconstruction Activities

The Great East Japan Earthquake occurred on March 11, 2011 and had a magnitude of 9.0, the largest ever recorded in Japan. It inflicted extensive damage on the university and the surrounding Tohoku region. However, we were able to ensure student safety and fortunately there were no human losses on our campuses. We worked hard to restore the university's educational and research infrastructure, and were able to start the new academic year two months later. The university is deeply grateful to all those in Japan and abroad who provided encouragement and timely relief efforts.

Lessons from 3.11
Toward the Future

Tohoku University Institute for Disaster Reconstruction and Regeneration Research

The Tohoku University Institute for Disaster Reconstruction and Regeneration Research was established in April 2011 to consolidate, disseminate, and implement university-wide efforts related to research, education, and social contributions aimed at recovery from the Great East Japan Earthquake. As a university located in the center of the affected area, Tohoku University has a historic mandate to exert every effort toward reconstruction. In cooperation with the local and national government, the university is developing eight projects and over 100 action plans to lead the reconstruction of the Tohoku region and the revitalization of Japan.

2030

Tohoku University Vision 2030

We published the Tohoku University Vision 2030, which describes an ideal form for Tohoku University for the year 2030 and specifies mid/long-term policies and specific actions to achieve it. It lays out 19 strategic priorities for implementing four pillars of education, research, cooperation with the community, and administrative innovations.

Be Global

@TOHOKU UNIVERSITY

Be Global Project

Responding to the "new normal" required by our times, Tohoku University is working to lead innovation in the global community. As part of this effort we have founded Be Global, a new project to assist international education. Be Global will address the obstacles that the COVID-19 pandemic poses to international exchange, study abroad, and collaborative/experiential active learning while extending learning/living assistance to students striving to realize their potential as global leaders. In doing so, it will construct a new model for further developing international education support systems at Tohoku University.

2020

The Front Line of COVID-19 Research

Tohoku University takes social responsibility seriously and we are fully committed to collaborating with our partners - at home and abroad- in the fight against the deadly coronavirus. To coordinate our efforts, the university has launched a collaborative project focused on coronavirus research. History has shown that we can overcome great challenges by working together and leveraging our strengths.

Starting Grants for Research toward Resilient Society (SGRRS)

Tohoku University has adopted 10 projects for the "SGRRS".

The seven pillars of research project, Co-pro7

The project seeks to establish a framework to identify problems and resolve them. At the heart of this are collaborative projects. Further initiatives include developing research centers that revolutionize society and digital communication, allowing humanity to adapt and respond effectively to the coronavirus.

*Co-Pro7 means "Seven Collaborative Research Projects for COVID-19".

Be Global Project

Be Global プロジェクト

Intercultural Collaborative Learning for Local & International Students

Intercultural Collaborative Learning Project

Among Tohoku University's efforts to promote internationalization in education, Intercultural Collaborative Learning (ICL) is a leading initiative domestically and abroad. ICL aims to lead the way to learning experiences that generate new values while using meaningful interaction to foster mutual understanding among students of different linguistic and cultural backgrounds. In the 2019 academic year, over 1,100 students experienced this interaction through the roughly 70 ICL classes offered in our General Education curriculum. This project expands the ICL scheme to incorporate online interactions, providing a virtual learning space that transcends geographical location and creates an opportunity for learning that includes an even more culturally diverse cohort of students.

- I. Creation of a platform for online ICL
- II. Student-led support team and class assistance

Digital Global Education Program

FGL Course/Digital Globalization Project

This is a pilot project for implementing future online promotion (PR), admissions, support, and education at Tohoku University. We will establish, expand, and develop the following four items in our Future Global Leadership Undergraduate Courses (FGL). These will contribute to the recruitment of exceptional international students, improvement of educational opportunities for FGL and Japanese students, development of international perspective, and the fostering of global leaders.

- I. Preparation of educational resources (infrastructure, learning materials, teaching methods, etc.)
- II. Implementation of FGL Pre-enrollment Education
- III. Expansion of subjects offered in English through adopting English language education and classes taught in English in cooperation with overseas partner schools and Japanese universities
- IV. Development of STEM (co-learning) classes to attract humanities students

Tohoku University Online Short Program Development Project

We will develop and implement an online version of the Tohoku University Japanese Program (TUJP), which is an inbound short program that was formerly conducted on campus. By conducting this program online, we can offer learning opportunities to overseas students who cannot study abroad due to various circumstances and to Tohoku University students who desire interaction with international students. Our goal is to build an international educational environment that will attract excellent students from abroad, and contribute to the nurturing of global professionals among our existing students. To achieve these aims, the project will implement the following two policies.

- I. Develop and implement the Online TUJP short program
- II. Expansion of short programs

International Student Support

International Student Support via the Peer Support Project

This project will provide international students an even greater level of fine-grained support by establishing a mutual student support (peer support) system for the pandemic and post-pandemic periods. It will evolve along with the new mixed offline/online lifestyle required by the times, contributing to the internationalization of our university. Moreover, it will further foster global professional skills among students involved in providing support to international students.

115th Anniversary of Founding, 100th Year as a Comprehensive University

創立 115 周年・総合大学 100 周年

In 2022 Tohoku University celebrates the 115th anniversary of its foundation in June, 1907. Established as Japan's 3rd national university, it has had the support of regional and local enterprises from the beginning and has evolved together with the community. Because one of the university's founding principles was its "Open Door" policy, it accepted women and international students soon after its opening, producing talented individuals active in all fields.

The university's Faculty of Law and Literature was established by imperial fiat in August 1922, making 2022 the 100th year since Tohoku University became a comprehensive university.

Faculty of Law and Literature classes commenced in April 1923.

As 2022 marks Tohoku University's 115th year since foundation, and its 100th year as a comprehensive university, we are determined to strengthen ties with alumni in Japan and abroad, contribute further to society through knowledge, and initiate the following projects, which will be conducted from January 2022 to April 2023.

Outline of Projects Celebrating the 115th Anniversary of Founding/100th Year as a Comprehensive University

1. Tohoku University Global Network Anniversary Project
2. 115th Anniversary of Founding/100th Year as a Comprehensive University Celebration Project
3. 115th Anniversary of Founding/100th Year as a Comprehensive University Commemorative Fund Project

International Alumni Online Gathering

The Tohoku University Alumni Network held its year-end get-together for 2021 on December 17, using the new interactive online platform, GATHER, for the first time.

Unlike conventional Zoom-style rooms, the GATHER platform offers a customized space where users can wander around freely and mingle between groups.

The highlight of every Alumni Network event is the opportunity to meet up, catch up and revisit memories of school days with old friends. And the highly interactive nature of GATHER also made it easier this time to make new ones.

Alumni were able to expand their social and professional network by getting to know members who are in related fields of work, or who have similar interests, through a name card exchange rally. The event ended with a reminder that 2022 marks the university's 115th anniversary.

International alumni will have more opportunities to engage and stay involved, and there will be special activities planned for past and current students to look forward to.

Global Network

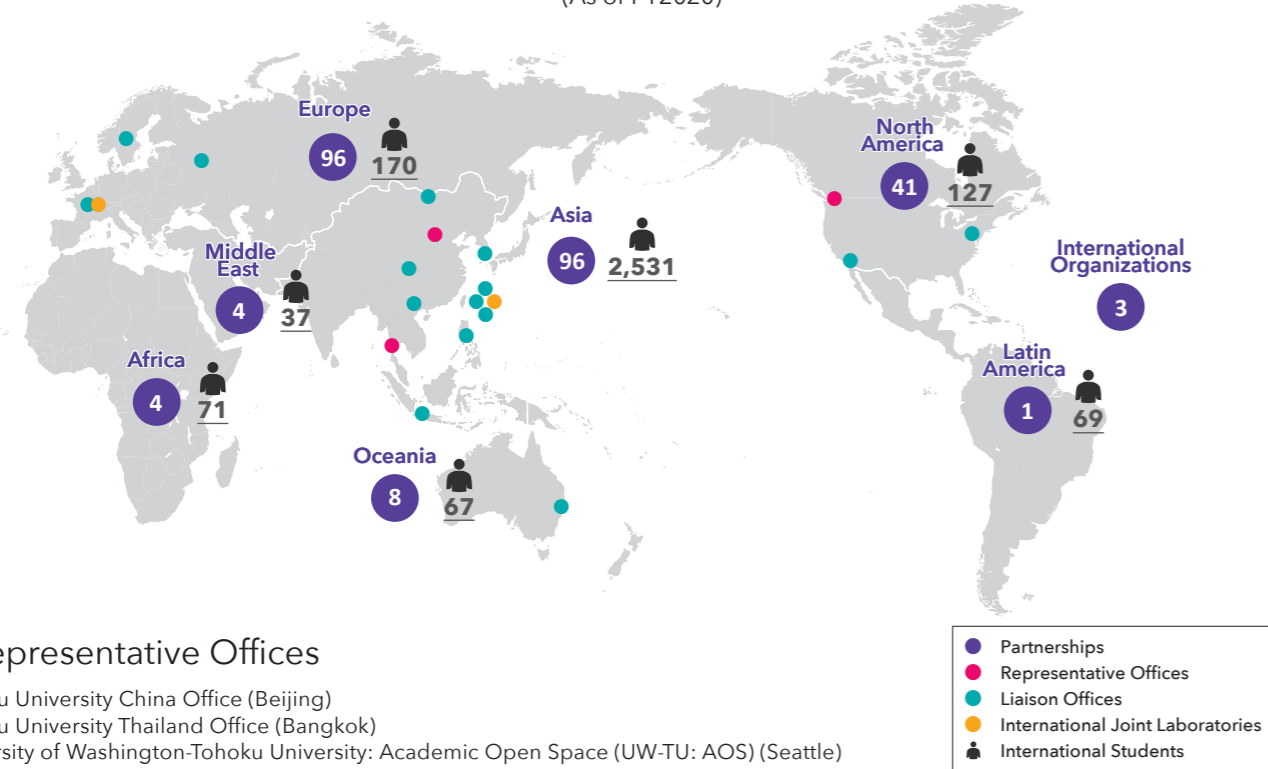

グローバルネットワーク

Tohoku University's unique global partnership network consists of academic exchange agreements with many top educational institutions around the world. The university is developing various study abroad programs and expanding its research presence around the world.

Graduate Admission

大学院正規課程

If you wish to enter graduate school, you should first look for a prospective academic advisor in your preferred field. Please see our website to help you decide what kind of research you want to perform at Tohoku University. The application process differs depending on the graduate school.

Graduate Degree Program (Degree seeking students)

1. Get consent of acceptance from a prospective advisor. 受入内諾の取得

You should first find a prospective advisor. Find faculty members in the field of your interest, contact them, and obtain consent of acceptance.

申請には、まず受入教員を見つける必要があります。希望する研究分野の教員をWEBで検索し、直接連絡のうえ受入許可を取得してください。

— To search by name, school, field, or keyword:

2. Check application eligibility/procedure. 出願資格・手続きの確認

The following items differ depending on the graduate school. Contact the academic affairs section, or office in charge of admission directly or through your prospective supervisor for details.

— application eligibility, documents, and schedule

— entrance examination

— when and how to pay application fee

If you do not meet the requirement below you may need to take a preliminary screening. Confirm you are eligible to apply.

Master Course:

You have finished a total of 16 years of education from primary school to a 4-year university and earned, or expect to earn, a bachelor's degree.

Doctor Course:

You have earned, or are expected to earn, a master's degree.

3. Submit application documents. 出願書類の提出

4. Take an exam. 受験

In some cases applicants for admission for courses taught in English can take the exam in English without coming to Japan. Contact the academic affairs section in other cases.

大学院に入学を希望する場合は、まず自分が希望する研究分野や、専門分野の教員を探す必要があります。東北大学でどのようなことを研究したいのか、WEBで調べてみてください。入学を希望するコースや教員によって入学の方法が異なります。

<http://db.tohoku.ac.jp/whois/TunvTopE.html>

出願に係る手続きは研究科により異なります。詳細は、直接又は受入教員を通して教務係(又はその他の入試担当者)に連絡し確認してください。

— 出願資格、時期、書類

— 入学試験の実施方法・時期

— 検定料の支払い時期・方法

以下の出願資格に当てはまらない場合は、出願資格の確認のため事前審査が必要になる場合があります。

博士前期(修士)課程への出願:

初等から高等まで計12年以上の教育(日本の小中高校に相当)を受け、大学の4年制の課程を卒業により学士号を取得又は取得見込みの者

博士後期課程への出願:

修士号を取得又は取得見込みの者

英語による学位取得コースにより入学しようとする場合は、試験は英語で実施され、来日が不要な場合もあります。その他の場合の試験方法等については研究科により異なります。

Non-degree Programs

非正規生

Research Students

Tohoku University also actively recruits short-term non-degree international students, i.e. research students. In general, research students receive guidance for their research under an academic advisor. Some students enter as research students to receive academic guidance before applying to a degree-conferring program.

How to apply

To become a research student, you should first find a professor to be your academic advisor, and contact him/her directly. (This is similar to the graduate school application procedure.) Once you have found an academic advisor, you should undergo application procedures for the relevant faculty/graduate school. You may apply to a wide range of departments at Tohoku University, including faculties, graduate schools, and research institutes.

As a research student, you must pay the designated examination, admission, and tuition fees. The term of study for research students is no more than one year.

Special Auditing Students and Special Research Students

Exchange students will be admitted to Tohoku University as Special Auditing Students or Special Research Students as per the exchange agreement.

Short-term Visiting Trainees

This status is given to students who receive training at Tohoku University for more than 3 days but less than 90 days. Students from countries having a visa waiver agreement with Japan usually do not obtain a student visa/student residential status. They are not "registered" students.

Japanese Language Program at Kawauchi for International Students and Scholars

東北大学日本語教育プログラム(外国人留学生等一般課程)

Section for Japanese Language Education

The Japanese Language Program at Kawauchi for International Students and Scholars aims to improve the participants' Japanese comprehension, and academic skills, while helping them adjust to their new living environment. The program is organized by the Institute for Excellence in Higher Education (IEHE) and held on Kawauchi Kita Campus. Japanese levels are numbered 1 (beginner) through 6 (advanced). Students can select classes matching their levels on a range of subjects, such as comprehensive Japanese, reading, listening, writing, usage, kanji, etc. Students in level 4 (intermediate) or higher can participate in International Co-learning Classes on a variety of topics together with local students. Students in level 5 (upper intermediate) or higher can take seminars on Japanese culture.

研究生

東北大学では、学位を取得しない短期の留学生も積極的に受け入れています。研究生として、指導教員の下で研究指導を受ける制度が一般的です。また、学位を取得する課程に入学する前に、指導を受けるために研究生となることがあります。

研究生になるには、大学院入試と同様に、はじめに指導を受ける教員を探し、直接教員に受入を依頼します。指導教員が決まったら、各学部・大学院などへ出願の手続きをとります。研究生は、東北大学の学部・大学院のほか、研究所などで広く受け入れられています。出願・入学には所定の検定料・入学料・授業料を払う必要があります。在学期間は1年以内です。

特別聴講学生・特別研究学生

本学が世界各国の高等教育機関と締結する大学間交流協定等に基づき在籍する交換留学生は、特別聴講学生又は特別研究学生として区分されます。

特別訪問研修生

3日以上90日未満の期間、東北大学で研修を行う場合の東北大学での身分です。通常、日本のビザ免除国では留学ビザ・留学の在留資格は取得しません。

Programs for Partner Institutions

協定校在籍者対象のプログラム

Tohoku University has an extensive range of Student Exchange Programs with universities throughout the world, which are open to undergraduate and graduate students. You might also be able to have your Tohoku University course work credited towards your degree back home.

東北大学では世界各国の学術協定校からの交換留学や、サマープログラム等、様々な期間のプログラムを用意しています。また、学部生や大学院生に対して広く門戸を開いていることも特徴です。

Financial Aid

Since these programs are based on exchange agreements between Tohoku University and the students' home institutions, tuition fees are waived for exchange students. Although the students themselves should bear the cost of living, they are eligible to apply for the JASSO Student Exchange Support Program (Scholarship for Short-term Study in Japan), which provides an allowance of 80,000 yen/month for the duration of study. Applicants will be asked to indicate their intention at the time of application.

Career Support

キャリア支援

DATEntre Tohoku Innovation Human Resources Development Program 東北イノベーション人材育成プログラム

This program is aimed at international students who want to find full-time employment within Japan through collaboration between local industry, academia, and government. Its goal is to develop human resources ready to hit the ground running and play a role in Japan's future economic development.

The qualifications for applying are as follows.

- 1 International students enrolled as regular students at an educational institution participating in the Tohoku Innovation Human Resources Development Consortium.
- 2 Those who meet all the requirements for the area of course certification and the target.
- 3 Those who want to find employment in Japan after taking this program.

International students who want to be certified should apply for certification at their university or technical college.

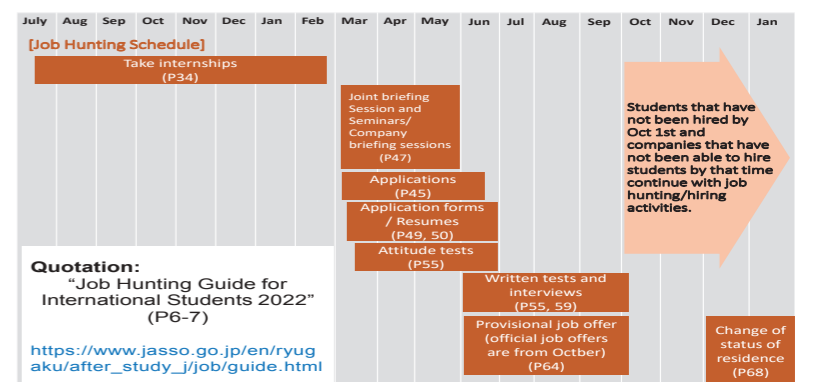

<https://datentre.ihe.tohoku.ac.jp/>

The areas of course certification and the requirements are as follows.

| areas | Course certification and requirements |
|------------------|--|
| 1 [Mandatory] | Japanese Those who have obtained N2 or higher in the Japanese Language Proficiency Test. Or, those judged by their educational institution to be able to pass the N2 level test or higher. |
| 2 [Mandatory] | Career Education / Business Japanese / PBL Those who have obtained 1 credit or more in regular classes related to "career education", "business Japanese", and "PBL" at educational institutions. Or, those who have studied at least one credit in a class at a seminar on "career education" or "business Japanese" sponsored by a DATEntre participating institution. (*1) |
| 3 [Mandatory] | Internship Those who have earned one or more credits in regular classes related to "internships" at an educational institution. Or, those who participated in an internship briefing session hosted by a participating institution and participated in an internship training equivalent to one credit or more in a class. (*1) |

(*1) "Equivalent to 1 credit or more in a class" means, for example, 7-8 90-minute seminars and 45 hours or more of study time for preparation and review. You can combine multiple types of seminars.

Tohoku University Center for Career Support Services

The Tohoku University Center for Career Support provides services in Japanese, focusing on support for job hunting in Japan.

1. Seminars and Workshops

Students can take various seminars on topics such as making plans for student life, self-analysis, and how to proceed with job hunting. Through workshops, we will provide opportunities to practically learn business etiquette and have group discussions.

2. Fairs

We host joint briefing sessions that provide information on internships, career paths, and employment, such as the "Career Employment Fair" and "Internship Fair (Summer / Winter)"

3. Career Advising

Students should apply for a reservation using DC mail on the web page when applying for individual advising. Please check the website for reservation instructions. The available times will change depending on Tohoku University's BCP level, so please check the Center for Career Support website.

Studying in SENDAI

学生生活

City of Trees

Sendai, where Tohoku University is located, combines the convenience of a modern city with abundant natural scenery, and is often called "the City of Trees." There are seasonal events throughout the year, attracting tourists from around the nation and local residents alike. Sendai is situated between the ocean and mountains with easy access to hot spring spas, ski resorts, and the scenic coastal islands of Matsushima.

Art

Sendai offers rich collections of art from all around Japan and overseas. There is an impressive variety of museums, galleries and concert halls.

Sports

The city of Sendai offers its guests and residents a broad variety of cultural activities. The games of the city's own professional baseball, soccer, and basketball teams are among the most popular events.

Climate

Sendai is characterized by a very moderate climate, yet you can experience the beauty of the four seasons. Summer temperatures sometimes exceed 30°C, but the average year-round climate is a relatively pleasant 14°C. In winter, temperatures below -3°C and snowfall of a meter or more are very rare.

東北大学のある仙台は「杜の都」とも称され、大都市でもありながら豊かな自然を抱える美しい街です。一年を通じて様々なイベントがあり、四季折々を楽しめる街です。海と山に挟まれた立地にあり、近郊には温泉やスキー場、また日本三景に数えられる松島も人気の観光地です。

博物館、美術館、コンサートホールなどの施設も充実しており、音楽、演劇、芸術、歴史の世界に触れることができます。

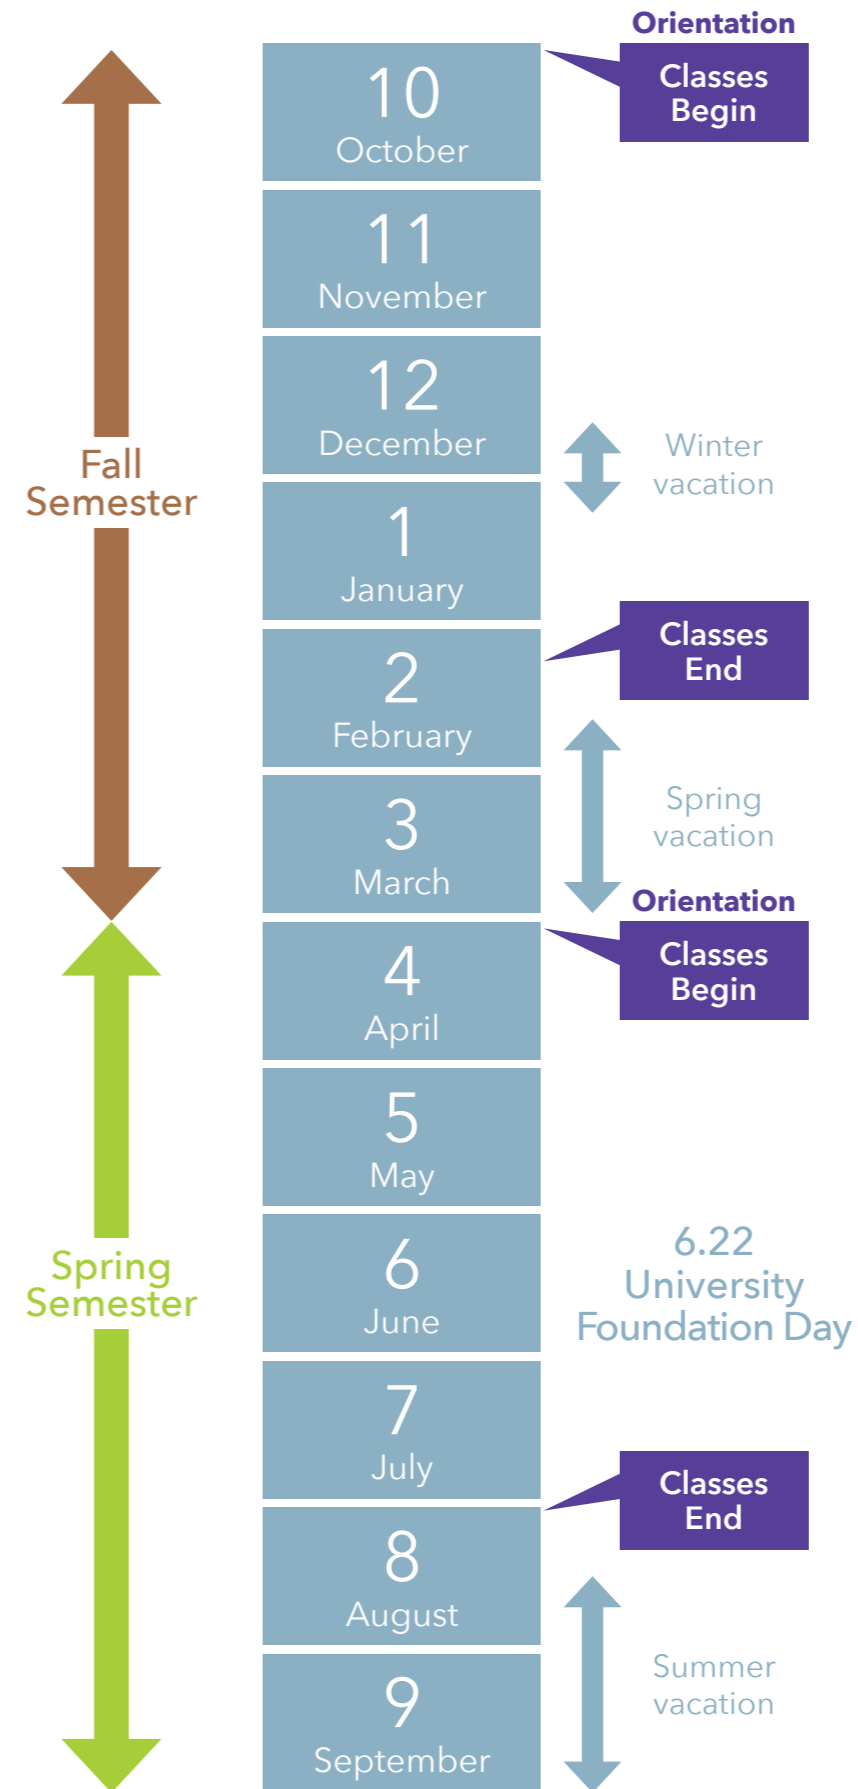

仙台には、野球、サッカー、バスケットボールのプロチームの拠点があり、ホームゲームには多くの市民が駆け付けます。

仙台は四季の変化に富みながら、穏やかな気候で暮らしやすい街です。夏は30°Cを超える日も数日ありますが年間平均気温は14°Cと比較的過ごしやすい気候です。冬はマイナス3°C以下、1m以上の積雪はほとんどありません。
