Participants' Comments

The Korean language class was excellent. It was a bit challenging and interesting. I learned a lot over the two weeks. The hanbok experience, making seals, the red ginseng spa, and the bibimbap, along with the other programs are experiences that I would never have been able to try if I had traveled alone.

All the programs were great. I especially enjoyed the hanbok experience, museum tours, and taekwondo. I was able to gain a deep understanding of Korean culture.
