

國立清華大學

NATIONAL TSING HUA UNIVERSITY

The 2024 Summer Program August 11 – August 18

The summer camp will further discuss the importance of energy futures in the era of globalization and examine the future development and challenges of Taiwan. Additionally, participants will have the opportunity to develop new business ideas in the energy and environmental sectors, making a positive impact on the environment and human health worldwide.

We cordially invite you to join us this summer to explore NTHU and the great diversity of Taiwan.

- Location : National Tsing Hua University (Hsinchu, Taiwan)
